

HIGHLIGHT MY TREASURES

Moonshine lightens the night
and replaces the fading sunlight
Hard times are gone for a while
and the stars reflect our peacetime
And so she moves me
away from my past into now

Old songs I played for so long
they just narrowed my imagination
So wrong, but I carried on
'till I fell into my isolation
And then she led me
into this new world where I'll find
the best part of my life

**Highlight my treasures (*colour my life*)
now I share my life with you
Finding new measures (*colour my life*)
now I've found a life with you
But old songs echo around
they are turning around
and around my head...
distract me from new solid ground**

Moonshine lightens our minds
and unfolds the sky's dimensions
It feels right, but the shadows I hide
could she really understand them?
She led me
into this new world where I'll find
the best part of my life.....

**Highlight my treasures (*colour my life*)
now I share my life with you
Finding new measures (*colour my life*)
now I've found a life with you
But old songs echo around
they are turning around
and around my head...
distract me from new solid ground**
