

MAYBE NOW

This non-forgotten past refills our souls
And we whisper words that are hard to say
but need to be told...
Lost in time, but finally found out why...

And as our beating hearts replace some tears
of memories we thought we knew
into a brand new fear,
Separate lives could maybe find a way
of merging into one....

**Maybe now
we've come closer
to a world we've had in mind
Maybe now
we've come closer
to this love**

The echoes of the past
confuse our souls
as we're imagining a new future
that just might unfold...
Lost in time , but finally found out why...

And now our restless hearts
reflect our fears
about decisions that will soon come by
with a few more tears
Separate lives could maybe find a way
of merging into one....

**Maybe now
we've come closer
to a world that we can share
Maybe now
we've come closer
to this love**
