

ME AND MY LADY

On Saturdays I'll go easy
'cause Saturdays set me free
I float on the tide with my lady.
And every day you please me
In every way you circle around me
like the stars 'round the moon:
me and my lady...

Now and forever
a love we've finally found together
We hold it forever through our lifetime...

**I ride on the time
with my lady, it's all right
Sharing my feelings that I used to hide
with my lady, it's all right
It's giving me strength
to reach the end of my lonely days...**

On Sunday nights I become restless
'cause Sunday nights restrict my freedom:
leaving my fortress and my lady.
But all the time you please me
Oh all the time you circle around me
'round my heart, 'round my soul,
you are my lady,,

Now and forever
a love we've finally found together
We hold it forever through our lifetime...

**I ride on the time
with my lady, it's all right
Sharing my feelings that I used to hide
with my lady, that's all right
It's giving me strength
to reach the end of my lonely days:
you are my lady....**

**It's all right, so right: me and my lady.
Sharing my feelings that I used to hide with my lady.
It's all right, so right: me and my lady.
Sharing my feelings that I used to hide with my lady.**
