

STILL LOVE YOU

It took quite a while
to ease my mind about everything
Lost for a while
with doubts all the time about everything
Questions and answers creating new chances
for a love to grow strong

And so we decide to open our minds
no more separate lives
The feeling is right, we treasure our nights
no more endless fights
With so many answers
we've come to our senses and
we'll never spoil our love again

**You're always with me inside my heart
as an irreplaceable part: I know it lasts forever
Yeah you're always with me inside my heart
as an unforgettable part.
And what I feel is what I do:
Still love you...**

**Never forget , I still love you
Never forget , I still love you**

After so many questions
sharing the answers
so ignorance never tear us apart again

**You're always with me inside my heart
as an irreplaceable part: I know it lasts forever
Yeah you're always with me inside my heart
as an unforgettable part.
And what I feel is what I do:
Still love you...
And what I feel is what I do:
Still love you...**

**Never forget, still love you...
Never forget, still love you...
Never forget, still love you...**
